Assignment -4

Assignment Date	22 October 2022
Student Name	RAGINI KUMARI
Student Roll Number	311019106059

Write code and connection in Wowki for ultrasonic sensor.

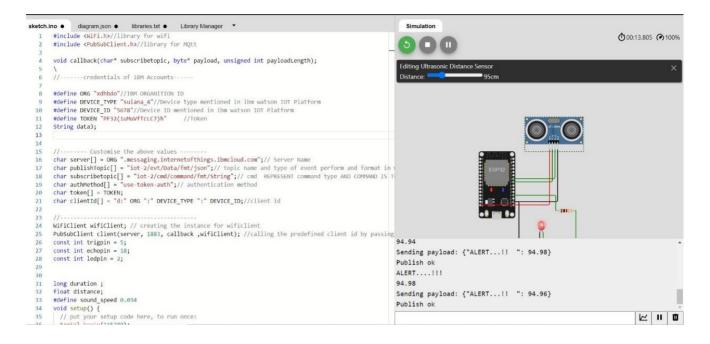

Whenever distance is less than 100 cm send "Alert" to IBM cloud and display in devicerecent events

Wowki link: https://wokwi.com/projects/346389445244617300

Step 1: Add new device in IBM cloud

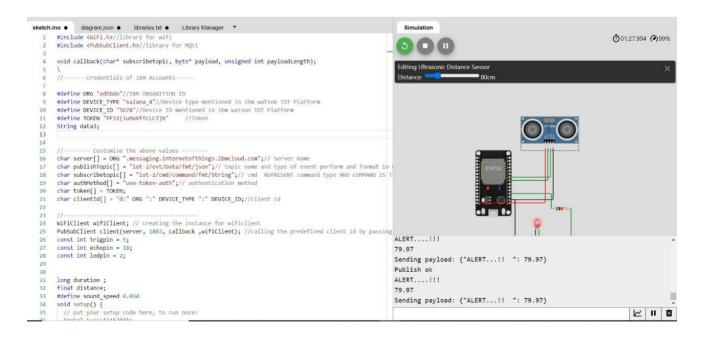

Step 2: Complete the Circuit and run the program

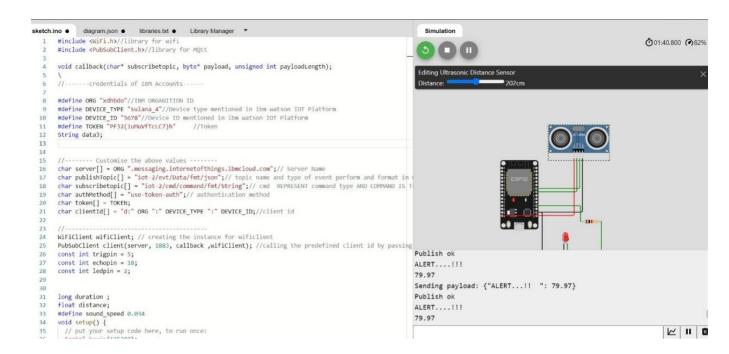

Output in WOWKI

a) when the distance is below 100 cms

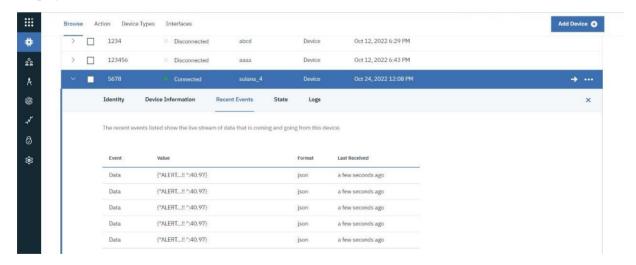

b) when the distance is above 100 cms, (no alert message is displayed here for 202 cm)

Output in IBM CLOUD (Watson Platform)

Displayed in device recent events
